## Part A: Overview

### 1. Introduction

Dubai Municipality prepared this guideline based on the initiative of improving Salons, Barbershops conditions with no or minimum cost on business owners and with criteria beyond health and safety requirements, thus creating challenging environment between business activity related establishment to assure practices compliance and customers satisfaction in the emirate of Dubai.

### 2. Purpose

Dubai Municipality collaborate with customers from ideal salon owners to offer excellent service beyond customer safe and hygienic service, with minimal probable complaint.

Also, categorize ideal salons as per consumer need to different classes, with the same high level of compliance.

### 3. Scope

Dubai Municipality shall to measure and raise built environment health and safety compliance level in all built environment in the Emirate of Dubai, which including for example gents, ladies and kids salons. Where, salon owners have their real chance to highlight their contribution towards sustainable solutions as preventive steps of human health protection.

### 4. Definitions

- Compliance level**

Indicate the degree of compliance that your organization scored, or to overall commitment with requirement, which expressed by range of grades, starting from higher A to F the lowest.

- Ideal salon**

Salon, which achieve higher level of compliance, and exceed the requirements in certain measured criteria.

- Added value**

Values measured in salon, to determine its class in the range of economy, business and first class.
